SUMMARY

As a Full Stack Developer with over 7 years of experience, I have honed my skills in both front-end and back-end development, delivering robust and scalable solutions. My expertise spans across a variety of technologies, including PHP, Laravel, TypeScript, React.js, Next.js, MongoDB, MySQL, and WordPress. I thrive in dynamic environments, consistently aiming to create seamless user experiences and efficient systems. Whether building from scratch or optimizing existing applications, my focus remains on writing clean, maintainable code and staying updated with the latest industry trends.
